

Postdoc Position at University of Florida, Southwest Florida Research and Education Center, Immokalee, FL

The Natural Resource Economics Program at the University of Florida, Southwest Florida Research and Education Center, Immokalee, FL is seeking a highly motivated, dedicated postdoctoral research associate to conduct innovative research in the areas of practice adoption and conservation policy design. The focus of this position is on conducting problem-oriented and policy relevant research developing econometric models to understand the economic and behavioral incentives for best management practice and technology adoption and their environmental implications.

Applicants must have a Ph.D. in agricultural economics, environmental and resource economics, energy economics, operations research or related field and an outstanding ability to perform thoughtful, critical quantitative analysis. Experience in computational methods linking economic models with biophysical and hydrological models, econometric methods, survey design, spatial analysis, excellent communication skills and an interest in working with interdisciplinary researchers is preferred. Applicants must have or be able to obtain a Florida driver's license.

The position is a full-time for two years with the potential for renewal based on satisfactory performance and funding. The position is available immediately. Qualified applicants can send their cover letter, resume, names and contact information of three references, and unofficial transcripts in a single PDF to Mrs. Becky Decker by email (rdecker54@ufl.edu). Inquiries about the position can be directed to Dr. Tara Wade by email (tara.wade@ufl.edu) or phone (239-658-3444). Screening will begin on January 2, 2020.
