Required Course Materials:

- **Textbook:** *Agribusiness: Principles of Management*, 1st edition by Van Fleet, David, Ella Van Fleet, and George J. Seperich. Cengage Learning, copyright 2015. Hardcover ISBN: 9781111544867; eBook ISBN: 9781285952352
- **E-learning:** There is an [E-Learning Canvas webpage](#) for this course. E-learning can be accessed via <http://elearning.ufl.edu> using your Gatorlink username and password. If you are having difficulties accessing E-learning, please contact the UF Computing Help Desk by calling (352)-392-HELP or via email helpdesk@ufl.edu.
- **Required Reading Materials:** Landscape Management Simulation Manual (on E-learning site)

Class Structure: Asynchronous Online (self-paced).

Composition of Final Score:

Course Assignments	Total Points	% of Total
Practice Quizzes and Learning Activities	200 points	33.4%
Exams (3)	300 points	50%
Team-based Landscape Management Simulation (LMS) Project	100 points	16.6%
Final Exam (Optional)	(100 points)	(16.6%)
Total	600 points	100%

Assignment due dates are provided in Canvas > Syllabus (or Assignments). Late submissions are acceptable, but will incur a 50% penalty deduction.

Course Assignments and Expectations:

Canvas Assignments (200 points):

Practice quizzes: There will be assignments (required readings, multiple choices, short answer questions, etc.) for each chapter.

Learning Activities (reading and self-reflection): There will be individual learning activities in Canvas and reading assignments in Perusall.

I apply a double-deadline approach to assignments (quizzes and learning activities only, not bonus points and the agribusiness simulation project). The first deadline is due in one week after the lesson (for students who need strict deadlines). The second deadline is due on the exam day (I will manually change the due dates after the first deadline). Students choose the deadlines that work better for effectively managing time (time management is the key to success).

Exams (300 points): There will be 3 required non-cumulative exams (one exam for every 2 sections). The exams will include multiple-choice, short answers, and calculations. The exams will be administered online through Honorlock and each will be a 60-minute test. Instructions will be provided on how to take exams through Honorlock. The students will be given 16 hours on the day of each exam to log in to Canvas and complete the test through Honorlock. Once an exam is started, the student must complete the entire exam in one sitting and will NOT be able to pause their progress and continue later.

Final Exam (Optional):

An optional comprehensive final exam will be given on May. 2nd at 12:30 pm – 2:30 pm (on Canvas). Students who wish to replace an exam grade from the semester may do so by taking the final exam. Students who miss an exam for any reason (excused or unexcused) may take the final to replace the missing grade. Any student caught cheating on any exam will receive a 0 on the exam and may not use the final to replace that grade (I retain the option of failing any student caught cheating on any exam – the minimum penalty for cheating is a 0 without the option to replace the grade).

Team-based Landscape Management Simulation (LMS) Project (100 points) (Regular semester version).

- LMS #1 Team Organization and Evaluation 5 points
- LMS #2-#3 Manual Readings (in Perusall) 5 points each
(total 2)
- LMS #4 Trial run: Decision Form (sheet1) 10 points
- LMS #5-#8 Q1 to Q4: Decision Form (sheet1)+Cost Estimation (Sheet2) 15 points each
(total 4)
- LMS #9 Final Report: 10 points
- LMS #10 Team Member Evaluation 15 points
- Total points: 100 points

Students will be divided into teams of 3-4 students. The trial run, Q1 to Q4 tasks are group assignments. Rules and assignments will be available on Canvas. (If a student does not participate with the group and they have made a reasonable effort to contact you, the student will be removed from the group and will be responsible for completing all assignments on their own).

Extra credits: There will be extra points available.

Course Evaluation

Student assessment of instruction is an important part of efforts to improve teaching and learning. At the end of the semester, students are expected to provide feedback on the quality of instruction in this course using a standard set of university and college criteria. Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give

Course Syllabus AEB3133

feedback in a professional and respectful manner is available at:

<https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at: <https://gatorevals.aa.ufl.edu/public-results/>.

Academic Honesty: As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge: *"We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity."* You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: *"On my honor, I have neither given nor received unauthorized aid in doing this assignment."*

It is assumed that you will complete all work independently in each course unless the instructor provides explicit permission for you to collaborate on course tasks (e.g. assignments, papers, quizzes, exams). Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For more information regarding the Student Honor Code, please see: <http://www.dso.ufl.edu/sccr/process/student-conduct-honor-code>

Software Use

All faculty, staff and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.

Services for Students with Disabilities

The Disability Resource Center coordinates the needed accommodation of students with disabilities. This includes registering disabilities, recommending academic accommodations within the classroom, accessing special adaptive computer equipment, providing interpretation services and mediating faculty-student disability related issues. Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the Instructor when requesting accommodation.

Diversity, Equity, and Inclusion: The University of Florida's College of Agricultural and Life Sciences (CALs) supports the University of Florida's commitment to diversity, equity, and inclusion. By fostering a sense of belonging for students, staff, and faculty, while leveraging the uniqueness of the people who study and work at the university, we believe our campus community is enriched and enhanced by diversity, including but not limited to, race, ethnicity, national origin, gender, gender identity, sexuality, class, and religion. This course will support an understanding of the diversity of our distance and campus communities as well as our agricultural and natural resource communities, locally and globally.

This course will strive to create a learning environment for students that supports a diversity of thoughts, perspectives, and experiences while honoring your identities. In this class we will take the following approaches to help achieve this:

- All course participants will use the names and pronouns provided by students for use in class. If these differ from those that appear in official university records, you can change your Display Name at One.UF (see [Student Help FAQs - eLearning - University of Florida \(ufl.edu\)](#)).
- If your performance in this course is being impacted by your experiences inside and/or outside the classroom, do not hesitate to contact the instructor and/or teaching assistant (TA). Instructors in CALs are a great resource for you and you may provide feedback anonymously. Feedback may result in general announcements to the class, if necessary, or reporting to appropriate UF personnel to address your concerns.

Course Syllabus AEB3133

- CALS instructors and TAs like many people, are still in the process of learning about diverse perspectives and identities. If something was said in class (by anyone) that makes you feel uncomfortable, please discuss with your instructor or TA or contact the CALS Dean's Office (cals-dean@ufl.edu).
