**Studying and Reading:** Learning research shows that long-term learning is most effective when learning activities are done in small segments over a period of time. The recommended study cycle for each chapter is reading the chapter, doing the MAL study plan, doing the homework, completing the quiz, and all assignments. Students are expected to (1) preview and scan chapters before attempting the study plan; (2) read chapters more closely while completing the MAL study plan and the homeworks, and then the quiz (3) consider examples within each chapter and end-of-chapter materials to focus attention on emphasized concepts, relationships, and problem-solving examples.

**MyAccountingLab (MAL):** One of the most important skills college students can develop is time management. The most common cause of failure to successfully complete this course is getting behind from lack of self-discipline or from succumbing to other competing time demands. Your primary tool for online work is MAL. The learning pace and timing of MAL activities will help you successfully complete the course and retain the knowledge you acquire.

**Study Plan:** This personalized study plan will be open and available for you to complete for each chapter. The study plan results will not influence your grade BUT the exams will basically come from the problems that you will work on in the study plan.

**Special Assignments AND Excel Assignments:** Special assignments include the Accounting Cycle Tutorial (in MAL) and other activities, as assigned from the end of each chapter. This may include Continuing Exercises, Continuing Problems, and/or Continuing Financial Statement Analysis Problems. Excel assignments are part of every chapter.

**Exams:** There will be three online exams. No late exams and no make-up exams will be offered BUT will be an optional comprehensive final that will be used to substitute for one of your three exams. The exams will consist of multiple-choice and problem-solving exercises/problems covering the designated chapters.

**Grading Policy:** The course grade will be determined based on the following:
