COURSE DESCRIPTION

This course provides an in-depth analysis of the fundamental elements of agricultural and food marketing. It will focus on the agricultural industry structure and the some of the basic agricultural economics principles related to consumers and agricultural food producers. It will also cover an overview of marketing strategies and will serve to familiarize students with the asset market derivatives commonly used by agricultural producers.

LEARNING OBJECTIVES

Upon successful completion of this class, students will be able to:

1. Master the terminology used in agricultural and food marketing
2. Understand the agricultural industry structure and the main objectives and activities of agricultural producers
3. Learn the basic agricultural economics principles behind the consumer decision-making process
4. Apply their knowledge to estimate demand and supply functions using real data
5. Describe the basic agricultural economics principles behind the hedging and speculation strategies used by agricultural producers

TEXTBOOKS

Main Textbook

Norwood, F. B. and Lusk, J. L. *Agricultural Marketing and Price Analysis*, 1st Edition, Prentice Hall, 2008.

NOTE: This is the main textbook that we will rely on in this class. This textbook is NOT required for success in this class but is highly recommended to supplement your knowledge of some of the main concepts covered during the semester. As we go through the different modules in the course, I will make reference to the pages in this textbook that cover the relevant material. It is essential to pay attention to the lecture videos and work regularly on the homework assignments and exercises in order to succeed in this course.

Supplementary Textbook

Peter, J. P. and Donnelly, J. H., Jr. *A Preface to Marketing Management*, 14th Edition, McGraw-Hill Irwin, 2014.

NOTE: This textbook covers the concepts related to traditional marketing and the four P's of marketing (Product, Price, Place, Promotion). We will briefly review some of these concepts as we go through the first 2 modules of the course. Again, the textbook is NOT required but is very useful for providing more information about the material in modules 1 and 2.

COURSE WEBSITE AND CORRESPONDENCE

UF Canvas is the official class website. **This is where you will receive all class announcements, so you should check here regularly.** I will also be sending some announcements through email so you should check your email regularly. Missing an announcement posted on Canvas or sent by email is NOT a valid excuse for not following through with course related activities. All the course material including announcements, lecture videos, supplementary readings, assignments, exams, and project will be uploaded on UF Canvas.

NOTE: You should add the title AEB3300 to all email correspondence with me. EMAILS NOT TITLED AEB3300 MIGHT NOT BE ANSWERED!

GRADING POLICIES

Final Score:

Your final grade will be calculated based on the following weights:

Assignments	32%
Discussion Board	8%
Project	24%
Quizzes	36%

The letter grade will be determined using the following grading scale

Points	Letter Grade
92%	A
89%	A ⁻
86%	B ⁺
82%	B
79%	B ⁻
76%	C ⁺
72%	C
69%	C ⁻
66%	D ⁺
62%	D
59%	D ⁻
Below 59%	E

NOTE: All grades calculated based on the above criteria are final and non-negotiable.

Assignments:

There will be a total of 9 homework assignments, which will collectively account for 32% of the final course grade. I will drop the lowest assignment grade, meaning that only 8 assignments will count towards the student's final course grade (4% weight on each assignment). Since we will be covering 9 modules in this course, each module will have an assignment associated with it. The assignments will be announced on Canvas and you will be given around 1 week to work on each assignment. The assignment due dates are also included in the course schedule on pages 11 and 12. The purpose of the assignments is to help you evaluate your understanding of the course material and to prepare you for the exams.

The penalty for late submissions is an automatic 20% deduction from the assignment grade and an additional 10% deduction for each day (24 hours) the assignment is late.

Discussion Board:

In order to foster higher engagement with the course material, students will be required to participate in discussion boards. There will be a total of 4 discussions, which will collectively account for 8% of the final course grade (2% weight on each discussion). In each discussion, the students will have to post their own opinion about a specific topic. The topics and instructions will be explained in detail in each discussion. You are highly encouraged to respond to each other's posts, however, you will only be graded based on your own initial post. The discussion board is treated as the participation component in this course and I will grade it very leniently (as long as the student completes it properly). This is a great way for you to be more engaged with the material, while at the same time collecting participation credit towards your final course grade.

The first discussion will be a course introduction, where each student will post something about themselves (background, major, career goals, interests, hobbies, etc.). For the other 3 discussions, each will cover a third of the course material (3 modules). Each discussion will include 3 statements, one for each of the 3 modules covered by that discussion. The students will be required to pick 1 out of the 3 statements and comment on it. The chart below provides an overview of the 4 discussions that the students will complete during the semester. More instructions will be given on how to complete each discussion.

The discussions will be announced on Canvas and you will be given around 1 week to complete each discussion. The due dates are also included in the course schedule on pages 11 and 12.

The penalty for late submissions is an automatic 20% deduction from the total grade and an additional 10% deduction for each day (24 hours) the submission is late.

Discussion 1 (Jan 13, 11:59PM)	Discussion 2 (Jan 31, 11:59PM)	Discussion 3 (March 11, 11:59PM)	Discussion 4 (April 15, 11:59PM)

Exams:

There will be a total of 4 exams, which will collectively account for 36% of the final course grade. I will drop the lowest exam grade, meaning that only 3 exams will count towards the student's final course grade (12% weight on each exam). The first three exams will each cover one third of the course material (i.e., each will cover 3 modules). The fourth exam will be cumulative and will be over all the material covered in the course. More information about the modules covered under each individual exam is included in the course schedule on pages 11 and 12.

The exams will be administered online on Canvas and each will be a 60-minute test. The students will be given 24 hours on the day of each exam to login to Canvas and complete the test. Once an exam is started, the student must complete the entire exam in one sitting and will NOT be able to pause their progress and continue later. Hence, it is the student's responsibility to make sure they have at least 60 minutes of uninterrupted time, a working computer, and a stable internet connection (wired connections are advisable since they are more reliable than wireless connection) to complete each exam. Any problems related to the computer and/or internet connection used to complete the exam are the students responsibility and will not be accommodated as valid excuses for a make-up. More instructions will be given out prior to each test.

Project:

Students will be required to complete an experiential learning project, which will count towards 24% of the final course grade. The project will require each student to visit one of the players in the food value-added chain (i.e., farmer, input supplier, producer, manufacturer, processor, assembler, wholesaler, or retailer). Students will be free to choose the player they want to visit (some examples will be provided in the project instructions sheet). While on their visit, students will ask questions and learn about the operation and activities of their

respective players. They will also take photos to document their visit and write a report about the things they learned as they relate to the material covered in class. More detailed instructions will be provided later.

MAKE-UP POLICY

Students will be allowed to make-up missed assignments, postings, and/or exams ONLY if they provide a valid excuse as defined by UF policy. Students will need to submit their excused absences through the U Matter We Care system, which will in turn verify and validate the submitted requests, after which they will contact me by email for approval. Students are encouraged to communicate with me during the process in order to make sure that everything is being done in a timely manner. To be eligible for any make-ups, students must notify me of the absence no later than 48 hours after the specific assignment or exam due date. I reserve the right to judge the excused absences on a case-by-case basis and approve/decline requests for make-up.

CAMPUS HELPING RESOURCES

Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our

community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.

Several resources are available on campus for students, especially if academic performance is at stake. In general, the Dean of Students Office provides a hub for these services: Location: P202 Peabody Hall Dean of Students Office (<http://www.dso.ufl.edu>) Telephone: 392-1261

Students with disabilities are encouraged contact the Disability Resource Center and coordinate the needed accommodations. This includes registering disabilities, recommending academic accommodations within the classroom, accessing special adaptive computer equipment, providing interpretation services and mediating faculty-student disability related issues. Please contact this office at 0001 Reid Hall, 392-8565, www.dso.ufl.edu/drc/.

Students experiencing crises or personal problems that interfere with their general well-being are encouraged to utilize the university's counseling resources at the following link (<http://www.dso.ufl.edu/supportservices/campuscounseling.php>). Resources are available on campus for students having personal problems or lacking clear career or academic goals, which interfere with their academic performance. These resources include:

- Counseling and Wellness Center (<http://www.counseling.ufl.edu/cwc/>) Location: 3190 Radio Road Telephone: 392-1575
- Student Health Care Center (<http://shcc.ufl.edu/>) Location: SHCC Infirmary Building Telephone: 391-1161
- Career Resource Center (<http://www.crc.ufl.edu>) Location: 1st Floor (CR-100), Reitz Union CR-100 Telephone: 392-1602

ACADEMIC DISHONESTY

Academic Honesty (<http://www.dso.ufl.edu/sccr/honorcodes/conductcode.php>). The academic community at UF prides itself on intellectual growth as well as stimulating and encouraging moral development. This is accomplished through nurturing and maintaining an environment of honesty, trust and respect. The responsibility to maintain this environment falls with student as well as faculty members.

Students who enroll at UF commit to holding themselves and their peers to the high standard of honor required by the Honor Code: We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity. Thus, on all work submitted for credit, the following pledge is implied: "On our honor, I have neither given nor received unauthorized aid in doing this assignment." Moreover, any individual who becomes aware of a violation of the Honor Code is bound by honor to take corrective action.

Violations of the Academic Honesty Guidelines shall result in judicial action and a student being subject to the sanctions in paragraph XIV of the Student Conduct Code. For example, conduct such as cheating and plagiarizing constitutes a violation of the Academic Honesty Guidelines (University of Florida Rule 6C1-4.017), which will be vigorously upheld at all times in this course.

Student Responsibility: Students should report any condition that facilitates dishonesty to the instructor, department chair, college dean or Student Honor Court.

Faculty Responsibility: Faculty members have a duty to promote honest behavior and to avoid practices and environments that foster cheating in their classes. Teachers should encourage students to bring negative conditions or incidents of dishonesty to their attention. In their own work, teachers should practice the same high standards they expect from their students.

Administration Responsibility: As highly visible members of our academic community, administrators should be ever vigilant to promote academic honesty and conduct their lives in an ethically exemplary manner. (Source: 2016-2017 UF Undergraduate Catalog).

On-Line Students Complaints: <http://www.distance.ufl.edu/student-complaintprocess>

Online Course Evaluation Process: Student assessment of instruction is an important part of efforts to improve teaching and learning. At the end of the semester, students are expected to provide feedback on the quality of instruction in this course using a standard set of university and college criteria. These evaluations are conducted online at <https://evaluations.ufl.edu>. Evaluations are typically open for students to complete during the last two or three weeks of the semester; students will be notified of the specific times when they are open. Summary results of these assessments are available to students at <https://evaluations.ufl.edu/results>.

COURSE EVALUATIONS

Students are expected to provide professional and respectful feedback on the quality of in-

struction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.
